CHERRY HILL NURSERIES

THURLOWS & STRANGER, INC.

West Newbury

.:.

Massachusetts

Nurseries at West Newbury and Newburyport

Telephone Newburyport—Homestead 2-6688

Members:

Mass. Nurserymen's Association New England Nurserymen's Association American Association of Nurserymen American Peony Society

We cordially invite you to visit our Nurseries at West Newbury and Newburyport where, for over one hundred years, the Cherry Hill Nurseries have been engaged in the growing of fine plants and trees. This long experience enables us to supply you with strong hardy plants that are sure to thrive in our rugged New England climate. Both Nurseries are located on improved roads easily accessible the year around.

If impossible to visit the nursery, we invite you to order by telephone or mail. We use the greatest possible care in the selection of all stock and we will gladly pay return charges and replace any stock not satisfactory if notified within five days after arrival of goods.

We are always glad to have customers order stock at the nursery where it can be seen, but cannot dig orders while the customer waits to take them. We will gladly tag and reserve special plants if the type and size wanted is other than the usual nursery run, but as orders through the spring are promised several days in advance most of the time, it will be necessary to dig them in rotation as ordered and either hold them to be called for or to be delivered by our trucks.

The above does not apply to Roses, Fruit trees or any of the various shrubs or evergreens that we often have dug ahead and ready to ship.

During the spring planting season, our Nurseries are open from 8:00 A.M. until 5:00 P.M. every weekday and from 10:00 A.M. until 5:00 P.M. on Sundays. However, no orders can be dug on Sundays but orders may be left for later delivery. We are closed Saturdays and Sundays during the summer and winter months.

For conditions of Sale see Page 65.

For more enjoyable living, we offer the trees and plants in this booklet.

GIFT CERTIFICATES

We are prepared to issue Gift Certificates, redeemable by us. This certificate will bear the recipient's name and yours as donor. For anyone interested in a garden or planting the home grounds this makes a very acceptable Christmas or Anniversary gift.

Evergreen Trees

All our evergreen trees are dug with a ball of earth adhering to the roots and burlapped (B.&B.). This insures against drying of the roots. Prices include this service.

Abies concolor

WHITE FIR

Tall-growing Fir from the Rocky Mountains. Symmetrical habit.

				Each	Per 10
18	to	24	in.	 \$6.00	

Chamaecyparis obtusa gracilis

HINOKI CYPRESS

Dark glossy green foliage in rounded obtuse fans. The growth is irregular and very interesting forms are developed.

			Each	Per 10
15	in.	***************************************	\$5.75	
18	in.		6.75	65.00
2	ft.		8.00	

Chamaecyparis o. nana

DWARF HINOKI CYPRESS

Interesting form of very slow growth. For rock work or where a dwarf evergreen is desired.

6 to 9 in. 6.00

Chamaecyparis plumosa aurea

GOLDEN PLUMED CYPRESS

Of the same growth as the green form, but the new growth tipped yellow. Rather slow in growth.

18	in.	 5.00
2	ft.	 6.00

Juniperus chinensis pfitzeriana

PFITZER'S JUNIPER

Spreading growth attaining a height of four feet. The undulating branches give a pleasing effect.

15 in. spread	5.25	45.00
1½ ft. spread	6.50	60.00
2 ft. spread	8.00	

Juniperus c. glauca hetzi HETZ JUNIPER

This resembles Pfitzer's Juniper in habit of spreading growth. Attractive glaucous green foliage.

	0	
15 in. spread	5.25	45.00
1½ ft. spread	6.50	60.00
2 ft spread	8.00	

Juniperus horizontalis depressa plumosa PLUMED SPREADING JUNIPER

Especially good for a ground cover as the plants make thick, low carpets. The foliage is bright green, changing to an attractive purple as winter approaches.

	Each	Per 10
15 in	4.75	45.00
1½ ft	6.00	55.00

Juniperus sabina SABIN JUNIPER

18 in. spread 5.00 45.00

Juniperus squamata meyeri MEYER'S JUNIPER
Unusual in coloring is this semi-erect evergreen with its intense steel blue foliage. Of dwarf growth.

15	in.	***************************************	4.00	35.00
18	in		5.00	

Picea abies (excelsa) NORWAY SPRUCE

Tall, fast growing evergreen of conical shape with medium green foliage. Very good for wind breaks.

2 ft	4.50	42.50
2½ ft	5.25	50.00
3 ft	6.50	60.00

Picea glauca (canadensis) WHITE SPRUCE

An attractive tall-growing evergreen of shapely habit. Hardy in exposed situations.

3	ft.		7.75
4	ft.		9.75
5	ft.	,	13.00

Picea pungens COLORADO SPRUCE

Stiff upright growth with long needles, light green in color. Very hardy and will grow in cold, exposed situations.

2 ft	5.50	
2½ ft	6.50	60.00
3 ft	8.00	75.00
3½ ft	10.00	95.00

Picea pungens Moerheim BLUE SPRUCE

Grafted plants from a specially selected blue form. 12 in. in cans 5.00 47.50

Pinus mugo mughus DWARF MUGHO PINE

The spreading branches are clothed with crisp, dark green needles. Rather slow in growth.

9	in.	spread	 4.25	40.00
12	in.	spread	 5.00	47.50
15	in.	spread	 6.50	60.00

Pinus nigra austriaca

AUSTRIAN PINE

A very hardy Pine of fast growth and broad irregular habit. Especially good for seashore planting.

	Each	Per 10	Per 100
2½ ft	7.50		
3 ft	9.50	90.00	
4 ft	13.00	125.00	1200.00
5 ft	17.50	170.00	

Pinus resinosa

RED PINE

Of very rapid growth with long dark green needles.

5	ft.	 12.50	115.00
6	ft.	 16.00	

Pinus strobus

WHITE PINE

One of the handsomest of our native evergreens. Soft green foliage.

2 ft	5.00	45.00	
2½ ft	6.00	55.00	500.00
3 ft	7.00	65.00	600.00
4 ft	8.50		

Pinus thunbergi

JAPANESE BLACK PINE

Resembling the Austrian Pine, but of much more irregular growth. Picturesque and good for seashore planting.

2 ft	6.00	55.00
2½ ft	7.00	65.00
2 ft	8 50	

PLANTING ALONG WOOD PATH IN OUR NURSERIES

Pseudotsuga taxifolia

DOUGLAS FIR

Coming from the Rocky Mountains this evergreen will withstand cold and wind. Short needles of dark green to bluish green.

		Each	Per 10	Per	100
3	ft.	 8.00			
4	ft	10.00			

Retinospora (See Chamaecyparis)

Taxus baccata repandens

ENGLISH SPREADING YEW

Low-spreading habit with dark green foliage. Does especially well in the shade.

15	in.	 7.00	65.00
18	in.	 9.00	85.00

Taxus cuspidata

SPREADING YEW

Does well in sun or shade. The medium green foliage is pleasing in texture. Red berries in the fall. Fine for group or foundation planting.

15	in.		6.25	60.00
18	in.	***************************************	8.00	75.00
2	ft.		11.00	105.00

Taxus c. capitata

UPRIGHT YEW

The upright form makes most satisfactory hedges, which may be kept trimmed from three feet to as tall as desired.

1½ ft		75.00	700.00
2 ft	10.00	95.00	900.00
2½ ft.	14.00	135.00	

Taxus c. densiformis DENSE SPREADING YEW

An improved form of the spreading type. Compact. bushy growth and heavy foliage.

15 in	7.00	65.00
1½ ft	9.00	85.00
2 ft	11 00	

Taxus c. nana (brevifolia)

DWARF YEW

Dark green foliage throughout the year. Of slow growth and spreading habit.

12	in.	 5.50	52.50
15	in.	 7.50	70.00
18	in	10.00	

Taxus c. nigra DARK SPREADING YEW

Dense spreading habit with heavy dark green needles. Somewhat slower in growth than Taxus cuspidata.

15	in.		7.00	67.50

ROSEBAY RHODODENDRON

Long, broad dark green leaves and tall growth. Delicate pink buds and white flowers bloom later than the others. Excellent for background and woods plantings.

1½ ft	6.00
2 ft	8.00
2½ ft. clumps	12.00
3 ft. clumps	14.00

A HOME MADE MORE BEAUTIFUL BY OUR PLANTING

RHODODENDRON HYBRIDS

With their large heads of flowers, varying in shades of bright crimson, pink or white, these are among our most striking of flowering shrubs. When not in bloom, the dark evergreen leaves give pleasing foliage effects. Many of the hybrids are not suitable as far north as this and we have selected and grown those of Rhododendron catawbiense parentage which have proved hardy. In planting, mix the soil with peat or leafmold, which has an acid reaction and is retentive of moisture during the summer. Heavy watering in the late fall will provide the plants with sufficient sap to carry them through the dormant winter period.

A PLEASANT PLACE TO SPEND AN AFTERNOON

Fruit Trees

The home grounds are scarcely complete without some fruit trees. The flavor of fruit ripened on the plant has a delicacy which more than compensates for the care expended in cultivation.

Our list comprises varieties which we believe are satisfactory for this latitude.

Fruit trees, except Apples and Pears, should be planted in the Spring only.

APPLES

Each Per 10 2 yr. 11/16 in. caliper 2.25 20.00

Summer Varieties

Red Astrachan — One of the early reds. Very rich and juicy. Flesh slightly acid.

Fall Varieties

- Cortland One of the McIntosh seedlings, resembling the McIntosh a great deal and even a better keeper.
- **Gravenstein** An old-time favorite, extra fine. Of large size with a delicate striping of yellow and red.
- McIntosh Bright red with crisp white flesh. One of the best eating apples.
- Hyslop Crab Strong growing variety which produces large crops of bright red fruit.

Winter Varieties

- **Baldwin** An old New England favorite. Deep red and of good size. Keeps well through the winter.
- **Red Delicious** Large, yellow, heavily striped red. Flesh crisp and juicy.

DWARF APPLES

These are grafted on Malling No. 9 roots which produce dwarf trees, and bear at an earlier age. Valuable for home grounds where space is limited.

2 yr. strong 3.25

MacIntosh Red Delicious

PEARS

Each Per 10

No. 1, 11-16 in cal., 4 to 6 ft.

2.50 22.50

Bartlett—An early variety. Considered one of the sweetest of all. Excellent for preserving or eating.

Beurre Bosc — Late and a good keeper. Dark russet and very sweet.

Clapp's Favorite — A very early variety and exceptionally good eating.

PEACHES

No. 1, 4 to 6 ft. 1.75 16.00

Belle of Georgia — Early, free stone peach. White flesh with red cheek.

Elberta — Considered one of the best shippers and great for canning. Ripens in mid-September.

Golden Jubilee — A new very early yellow-flesh variety of fine shape and color.

Hale Haven — Very handsome fruit of contrasting red and yellow. Early.

CHERRIES

No. 1, 4 to 6 ft. 3.25

Black Tartarian — Large sweet fruit, almost black.

Windsor — Light red, firm but juicy. Sweet.

PLUMS

No. 1 11-16 in. cal. 5 to 6 ft.

2.50 22.50

Abundance — Extra good-sized red plum and very popular for both eating and canning.

Burbank — Dark red of good quality. Very valuable as a canner or for table sauce.

BLUEBERRIES

The following varieties have been selected for their heavybearing qualities of exceptionally large fruit. For planting in the garden or shrub border.

1½ to 2 ft. Potted 2.25 20.00

Burlington — Late. Large berry.

Earliblue — Early. Firm light blue berries.

Jersey — Late. Large, light blue berries.

Rancocas — Early. Produces freely on tall stems.

Rubel — Midseason. Upright bush. Firm berries of medium blue.

GRAPEVINES

While some of these are old standbys, yet they are still worthy of a place in any garden.

Concord — Late, blue, an old popular variety.

Fredonia — The earliest blue grape, fruit large and sweet.

Niagara — Large, white, honey-sweet.

ASPARAGUS

Per 25 Per 100 2 yr. 1.90 6.00

Mary Washington — A new introduction, producing large quantities of tender stalks.

LANDSCAPING COMPLETES YOUR HOME

Roses

In our northern climate, roses must be selected with a thought for hardiness and vigor as well as the bright color effects desired in the garden. Our list covers a wide range of color and we have found these to be vigorous. In this latitude the plants should be protected for the winter by heaping earth around them and then covering with a mulch so that they are covered six inches deep. In the spring prune back to live wood.

All our Roses are potted in generous-sized containers. In planting, slit the paper pot leaving the earth intact and plant about three inches deeper. They will then be well-established to grow rapidly for bloom in June and throughout the summer.

Our potted Roses will not be ready for planting in your garden before May 10th when they will be in leaf and bud. We would suggest, however, that you place your order early so that we may reserve for you the kinds you would like, as sometimes by May 10th some varieties are all sold out.

As roses need more aftercare than flowering shrubs, we cannot be responsible for their growth after they leave the nursery and any complaints must be made within ten days after being received.

We may be out of certain kinds and will substitute varieties similar in color unless otherwise directed. Please advise us if you do not wish substitutes.

We do not recommend the fall planting of roses for this latitude.

HYBRID TEA ROSES

These will give an abundance of bloom from June until frost. They should be fertilized liberally every year and given some protection from the sun and frost during the winter.

Each Per 10
Potted Plants \$1.95 \$18.00
(Unless otherwise noted)
Available after May 10th

Betty Uprichard — Beautiful coppery pink with orange shadings. Back of petals carmine-pink. One of the best.

Burnaby (Patent No. 1314) — Canary yellow bud opening into flowers of soft yellow. \$2.80 each.

Charlotte Armstrong — Blood red buds and cerise flowers on long stems.

- Chrysler Imperial (Patent No. 1167) Long buds of dark velvet red opening into sparkling red flowers. "All America Rose" selection 1953. \$2.90 each.
- Condesa de Sastago Deep coppery pink petals colored golden-yellow on the reverse side making a charming two-toned flower.
- Crimson Glory Deep vivid crimson blooms on vigorous bushes. Very fragrant.
- Eclipse Distinctive tapering buds of yellow. Abundant bloomer. One of the best all-purpose yellow Roses.
- Etoile de Holland One of the world's best. Very hardy and vigorous. Beautiful crimson-red blossoms.
- Fort Vancouver (Patent No. 994) Large full blooms of medium pink. Fragrant. Vigorous growth and good foliage. \$2.75 each.
- Forty Niner (Patent No. 792) A bicolor, with outside of petals chrome-yellow and inside vivid oriental-red changing to cherry-red as it ages. \$2.60 each.
- Frau Karl Druschki One of the very best of the pure white varieties.
- Helen Traubel (Patent No. 1028) Long pointed buds opening into flowers of luminous pink suffused with apricot lights. \$3.00 each.
- **K. A. Victoria** Beautiful, well-formed, pointed buds of creamy-white.
- Kordes Perfecta (Patent No. 1604) Creamy white buds opening into large, full flowers of a charming combination of pink, cream and yellow. \$3.75 each.
- Margaret McGredy Brilliant red, with yellow lights at base of petals. Blooms freely.
- Mojave (Patent No. 1176)—Apricot-orange with nasturtium-red and scarlet. Long pointed buds. \$3.00 each.
- Mrs. E. P. Thom Fine, dependable yellow, retaining its deep rich color without fading.
- Mrs. P. S. duPont Continuous bloomer on extra strong canes. Flowers deep golden-yellow, both in bud and flower.
- New Yorker (Patent No. 823) An enormous clear, sparkling, red rose that holds its color. Buds darker in color than the open blooms. Very exceptional. \$2.90 each.
- Peace (Patent No. 591) Oval buds golden-yellow etched with pink. As they open, the color changes from canary-yellow, to pale golden, to iridescent cream. Flowers are 5 inches across. \$2.60 each.
- Pink Dawn Exquisite pink with deeper shadings, giving an abundance of fragrant bloom.

Pink Favorite (Patent No. 1523) — Pointed buds and flowers of clear deep pink. The foliage is glossy green and mildew resistant. \$2.80 each.

Queen Elizabeth (Patent No. 1259) — Grandiflora. An abundance of flowers of good size, soft rose pink with flesh pink lights. \$2.80 each.

Radiance — A strong, vigorous and hardy variety bearing large rose-pink flowers, globular in shape.

Red Radiance — Rosy red variety. Fully equal in all points to the above.

Soeur Therese — Long pointed buds of rich yellow with reddish markings at base of petals. Fragrant.

Starfire (Patent No. 1742) — Grandiflora. All-America Award 1959. Glowing, current red. Excellent foliage and growth. \$3.50 each.

White Knight (Patent No. 1359) — A fine new introduction of satiny white flowers that do not discolor. All-America Award for 1958. \$3.30 each.

CLIMBING ROSES

Each Per 10
Potted Plants \$1.95 \$18.00
(Unless otherwise noted)
Available after May 10th

Blaze (The New Blaze) — Bright scarlet-red flowers of large size borne freely on strong stems. Often a recurrent bloomer.

City of York — Attractive semi-double flowers of creamy white of wild-rose fragrance.

Climbing American Beauty — A variety with carmine-red blooms. Has a tendency to fade.

- Golden Showers (Patent No. 1557) Rich yellow flowers of large size. This new variety blooms over a long period. \$3.00 each.
- Mary Wallace Charming flowers of deep, warm pink. borne profusely on long stems. Excellent for cutting.
- New Dawn A climbing rose which is ever-blooming. Delicate deep blush or shell-pink of large size.
- Paul's Scarlet Large flowers on long stems are borne in profusion. Bright scarlet-red making an effective display.
- **Primrose** Clusters of canary-yellow flowers which hold their color well until the petals drop. Plant hardy and vigorous.

DWARF AND FLORIBUNDA ROSES

These Roses are hardier and of more vigorous habit than Hybrid Teas. When established, they seldom need replacing for a long period of years. The flowers, many of them the size of Hybrid Teas, are carried in thick clusters and bloom profusely the entire season until heavy frosts.

- **Bellina** (Patent applied for) Delightful peach-pink with yellow undertones. Compact growth and blooms continuously. \$2.75 each.
- **Betty Prior** Single carmine buds opening into deep shell-pink flowers.
- Donald Prior Semi-double bloom of deep glowing red.
- Else Poulsen Semi-double bright rose-pink flowers in abundance. Strong clean growth.
- Encore (Patent No. 1662) Rose-pink with creamy pink lights. Good sized flowers in abundance. \$2.65 each.
- Fashion (Patent No. 789) Entirely new color in Roses luminous coral suffused with gold. Greatest award winner of all times. \$2.50 each.
- Floradora Buds pinkish-orange opening into a brilliant cinnabar-red touched with orange-scarlet and geranium-red. Double flowers.

- Fusilier (Patent No. 1709) Rich orange red flowers, with many frilled petals. All-America Award for 1958. \$2.75 each.
- Gold Cup (Patent No. 1683) Golden-yellow which does not fade. Fragrant. All-America Award for 1958. \$2.75 each.
- Goldilocks (Patent No. 672) Rich, golden-yellow flowers. cupped in early stages. Up to 3½ in. across. \$2.20 each.
- Jimminy Cricket (Patent No. 1346) Tangerine-red buds, opening to coral-orange. Glossy green foliage. \$2.30 each.
- Lafayette Improved Double flowers borne freely in clusters on long stems. Bright cherry-red.
- Ma Perkins (Patent No. 1143) Coral shell-pink, fortified by shades of red in the outer petals and a touch of yellow at the base. Very fragrant. \$2.40 each.
- Red Pinocchio (Patent No. 812) Rich scarlet blooms 3½ in. across borne in clusters. Bushy, upright growth and free flowering. Wild rose fragrance. \$2.15 each.
- Rose Elfe Large flowers of clear pink, borne in clusters on long stems.
- Snow Bank Double flowers of pure white give a suggestion of the name.
- Spartan (Patent No. 1357) Burnt-orange buds opening to a reddish-coral. \$2.90 each.
- Vogue (Patent No. 926) Immense clusters of perfectly formed, Hybrid-tea-like blooms up to 4 in. across. Brilliant cherry-coral. \$2.30 each.
- White Bouquet (Patent No. 1415) Buds light cream opening into pure white gardenia-like flowers. All-America Award 1957. \$2.80 each.

VARIOUS ROSES

- Hugonis Strong fast growth and may be used in a shrub planting. The exquisite soft yellow single flowers are borne in sprays in May and June. Potted \$1.95 each; \$18.00 per ten.
- Rosa rugosa Bushy vigorous growth with glossy green foliage. Single red flowers followed by attractive red hips. 12 to 18 in. \$1.25 each; \$11.50 per 10.

Peonies

Wherever one desires continuing bloom year after year from plants in the garden, we recommend the planting of Peonies. Hardy in almost all parts of this country and Canada, the vigor of the plants and the wealth of blooms in their lovely shades of white, pink and rich reds give delightful effects both in the garden and as cut flowers. When once established, the plants increase in size and quality for many years and need not be disturbed. They will persist in many localities where other perennials fail to grow and their increasing use testifies to their popularity.

Peonies are especially decorative as cut flowers and many amateur enthusiasts give thousands every year to churches and hospitals.

We have endeavored to consistently maintain our freeblooming Cherry Hill Strain by selective propagation and the large, vigorous plants which we furnish give satisfactory results.

Culture of Peonies

Peonies will grow in almost any location, but do best when not planted too near large trees. However, where they are given some shade from the hot afternoon sun, the delicate colors may be retained. A good garden soil of loamy texture, where there is drainage, will produce satisfactory roots and flowers. In this type of soil, no especial preparation is necessary except to loosen and break up any lumps.

You may use any garden fertilizer available or bone meal. Wood ashes containing lime and potash have proved very satisfactory. The amount will be determined by the size of the plant, but a good handful is a rough measure. Too much rain may cause botrytis, a fungus which causes the stems to wilt and turn black. We find that ground limestone is one of the best correctives and this may be used freely. The diseased stems should be burned.

The roots should be planted so that the buds are about two inches below the surface when the ground is settled around them. Too deep planting will result in good foliage but no blooms. This is usually the cause for lack of blooms. Do not attempt to replant Peonies in soil where they have grown before, and if the same location is desired, the earth should be removed and replaced by fresh earth from another part of the garden. When the buds attain about an inch in size, they exude a sticky honey which is attractive to ants, but these seldom do harm and will disappear in a short time.

ANNISQUAM PEONY One of Our New Introductions

Peonies do best if transplanted in the autumn months from September until November when the buds for the next year are dormant. They may be planted in the spring, but it should be in early April before the buds have pushed through the ground. The first season will not produce large and often not typical blooms. They should be treated as permanent plants and will grow and thrive from ten to twenty years in one location.

SHIPPING CHARGES

When shipping Peonies, we cut off the tops leaving compact plants. Except in large quantities these may usually be sent by parcel post more cheaply than by express. If you wish your order shipped in this way, please include 30 cents for the first root and 10 cents for each additional root. We will pack plants securely so that they will arrive in a fresh condition ready to be put in your garden. Larger shipments may be sent express collect.

DOUBLE-FLOWERING PEONIES

For your convenience we have listed these according to color.

Prices quoted are for strong, healthy plants with at least three to five buds.

For two-year clumps, add 50%.

For three-year clumps, double the price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. Five or more of a variety priced at \$1.50 each would be \$1.35 each.

(Double Peonies continued on next page)

For shipping charges see Page 44.

White and Blush

- Amberglow Strong upright stems of medium height bearing dark green leaves which have a peculiar fluted effect. The bud is delicate pink and the flower globular, flesh pink with salmon lights. Late but opens well and is noticeable for its delicate coloring and crisp freshness. A Cherry Hill production. \$4.00.
- Arthur H. Fewkes A variety originated by the late Arthur H. Fewkes and named by his family. Strong stems of medium height. Wide petals of fine form and texture, ivory white with salmon shadings at base of petals which give a buff or salmon light throughout the flower. Late \$4.00
- *Avalanche 8.7 Fine flowers of convex form, ivory-white sometimes with a touch of crimson on center petals. Extra good. Late midseason. \$1.25.
- *Baroness Schroeder 9.0 Well-formed globular flowers of white with a soft baby-pink center changing to white. Very satisfactory. Late midseason. \$1.50.
- Cornelia Shaylor 9.0 Large, full flowers of pyramidal form. Soft pink and white. \$1.50.
- *Duchesse de Nemours 8.1 Broad, cup-shaped outer petals of white and center of sulphur-yellow. Blooms freely. Early midseason. \$1.25.
- *Enchanteresse 8.9 Large globular flowers of creamywhite sometimes flecked carmine. An exceptionally fine late variety. \$1.50.
- *Festiva Maxima 9.3 Exceptionally large ivory-white flowers with a fleck of crimson in the center. Strong stems and foliage. Midseason. \$1.25.
- *Frances Willard 9.1 Strong stems surmounted by large flowers of lovely cream white. Late midseason. \$1.50.
- Frankie Curtis 8.9 Large white blossoms borne on stiff stems. Midseason. \$2.00.
- Golden Dawn 8.6 Outer petals creamy white with center of deep sulphur yellow. A so-called "yellow" peony. \$1.50
- *Harry F. Little Gold Medal A.P.S. The delicate tinted buds open into large white flowers tinted with cream. Broad petals somewhat notched. \$3.00.
- *James Kelway 8.7 Exquisite white with golden glow. Very fragrant. Early midseason. \$1.50.

- Jubilee 8.9 Immense flat flowers of ivory-white. Stems long but inclined to be weak. Midseason. \$1.50.
- *Kelway's Glorious 9.8 Buds slightly tinted pink open into large flowers of glistening white. Fragrant. Late midseason. An exceptionally fine variety. \$3.00.
- *Le Cygne 9.9 Charming, milk-white with broad, rounded petals. The large symmetrical blooms are never coarse. Midseason. An extra fine variety. \$3.00.
- Madame Emile Lemoine 8.9 Soft flesh-white. Midseason. \$1.50.
- *Madame Jules Dessert 9.4 Large flowers with broad petals of creamy-white lighted with buff and salmon shades. Midseason. \$1.50.
- Mrs. A. M. Brand 9.0 Very large, rather flat flowers of pure white. Fragrant. Tall strong stems. Late. \$2.00.

CURVED PLANTINGS ADD CHARM

- *Mrs. A. O. Norton Very large flowers with broad, overlapping petals of pure white suffused yellow at the base. Late midseason. A fine new variety. \$10.00.
- Mrs. Harriet Gentry 8.9 Glistening white with a greenish tinge at base of petals. Late. \$2.00.
- Nimbus 9.1 White with blush center. Fragrant. Excellent habit and gives a charming effect. Late. \$1.50.
- Nymphaea 8.8 A Cherry Hill production. Flat flowers of creamy-white petals mixed with yellow stamens. The edges of the petals are somewhat rolled, giving a water-lily effect. Midseason. \$1.50.
- *Priscilla Alden 9.1 Pure white with broad rounded petals. Noticeable in the garden for its fresh appearance. A fine variety. Early midseason. \$2.00.
- Rapture A Cherry Hill production. Very large, the outer petals broad and rounded, center petals shorter giving the blooms a cupped effect. Pure white suffused with a creamy light. Pleasant fragrance. Midseason. \$7.50.
- Summel Cloud A Cherry Hill production. Faint pink buds open into well-formed flowers with wide outer petals of white and center of narrower petals having a creamy light. Long, strong stems. We consider this to be superior to Kelway's Glorious. Midseason. \$3.00.
- Thomas C. Thurlow 9.1 A Cherry Hill production. Broad petals of salmon-flesh changing to white, lighted by narrow petals edged with yellow. Does best when well-established. Fragrant. Midseason. \$2.00.

Light Pink

- *Annisquam Large globular blooms of tender pink which retain their coloring until the petals fall. The petals are broad and rounded forming a cupped-shaped flower of smooth attractive appearance. Good both as a cut flower and for garden use. Pleasant fragrance. Midseason. A Cherry Hill production. We consider this one of our finest productions. \$15.00.
- Coronation 8.5 Delicately tinted buds of pale pink. The cup-shaped blooms give a charming effect. Early midseason. \$1.50.

- *Edwin C. Shaw 9.1 A Cherry Hill production. Very large flowers of flesh-pink with broad rounded petals. Symmetrical in form and cupped in shape, this is especially attractive. Fragrant. Late midseason. \$2.50.
- *George W. Peyton Delicate flesh pink showing amber lights at base of petals. Late. A very fine new variety. \$4.00.
- *Grandiflora 8.8.—Flat flowers of silvery shell-pink. Pointed petals. Very late. Extra good. \$1.50.
- Hansina Brand 9.0 Flat flowers of deep shell-pink with salmon lights. \$3.00.
- *Katharine Havemeyer 9.0 A Cherry Hill production. Large blooms of light rose-pink. The broad petals are cupped in the center giving a rosebud effect. Fragrant. Late midseason. \$2.50.
- Lady Alexandra Duff 9.1 Very broad petals of soft blushpink with flesh tints. Very satisfactory variety. Midseason. \$1.50.
- *M. Jules Elie 9.2 Globular blooms, outer petals recurved, resembling huge chrysanthemums. Clear medium pink with a silvery tinge. Midseason. \$1.50.
- *Myrtle Gentry 9.0 Large, full flowers of rosy-white or pale pink with salmon lights; broad, rounded petals. An outstanding variety. \$2.50.
- *Nick Shaylor 9.2 Large globular blooms of creamywhite. Pink and salmon lights at base of petals suffuse the whole flowers giving a charming effect. Late. \$4.00.
- *President Wilson 9.3 A Cherry Hill production. Large, bright rose-pink changing to shell-pink as flower opens. Petals broad and overlapping with cupped center. The blooms will last a long time and hold their delicate coloring to the end. Spicy fragrance. Late. \$2.50.

- *Pride of Essex 8.9 A Cherry Hill production. Large, cupshaped blooms of deep shell-pink borne on strong upright stems. Clear fragrance. Midseason. \$1.50.
- *Reine Hortense 8.7 Large, compact flowers with broad rounded petals of soft flesh color with some crimson splashes. \$1.25.
- Rose Shaylor 9.1 Flesh-pink to creamy-white. Erect, strong growth. Midseason. \$2.00.
- *Therese 9.8 Large soft shell-pink with lighter center. Vigorous and free-blooming, this is one of the most popular and satisfactory varieties which we have. Early midseason. \$2.00.
- *Venus (Kelway) 8.3 Exquisite pointed buds. Delicate shell-pink and white. Strong stems and free blooming quality. Very fine. Midseason. \$1.25.
- *Walter Faxon 9.3 Bright shell-pink with salmon shades. Almost the only really pink peony. Medium-sized blooms. Midseason. \$1.50.

Deep Pink

- Auguste Dessert 8.7 Bright rose-pink with silvery edges. Especially fine for garden effects. Midseason. \$1.50.
- *Edulis Superba 7.6 Deep rose-pink especially good in the garden. Early. \$1.25.
- H. A. Hagen 8.2 Cup-shaped blooms, deep rosy-pink. Late. \$1.50.
- *Jules Calot 7.2 Globular blooms of deep rose-pink of a pleasing shade not often found. Blooms freely. Late. \$1.25.
- *Lillian Gumm 8.9 Immense, very full double blooms of rose-pink. Late. \$1.50.

- Martha Bulloch 9.1 Very large flowers of bright old rose pink. Tall growth. Late. \$2.00.
- *Merrimac A Cherry Hill production. Very large globular blooms of deep rose-pink of an unusual shade. Strong stems and foliage. Pleasant fragrance. Late, but always opens well. \$3.50.
- *Phyllis Kelway 9.0 Bright pink, yet with delicate coloring which gives a fresh and charming effect. Strong erect stems. Fragrant. Late. \$1.50.
- *Rachel 8.3 Fresh, soft rose. Strong stems. Late midseason. \$1.25.
- Souvenir de Louis Bigot 9.1 Large blooms of rich salmon pink with silvery lights. Free blooming and extra fine. Midseason. \$1.50.

Red

- *Adolphe Rousseau 8.5 Large, sometimes semi-double flowers of deep garnet. Very popular variety as its height and color make it conspicuous in the garden. Early midseason. \$1.25.
- *Charles McKellip 7.8 Globular blooms of brilliant red. Blooms freely. Late midseason. \$1.25.
- *Cherry Hill 8.6 A Cherry Hill production. Deep garnet with a sheen which makes a bright appearance in the garden. Center petals are intermixed with golden stamens. The first of our double varieties to bloom and the tall strong stems carry the flowers well. A distinct garden variety. \$1.50.
- *Felix Crousse 8.4 Brilliant crimson with a deeper rubyred center. Blooms freely and vigorously. A very satisfactory variety. Midseason to late. \$1.25.
- Grover Cleveland 8.2 Fine dark crimson. Late. \$1.50.
- *Karl Rosenfield 8.8—Brilliant dark crimson. Blooms freely and one of the best of this color. Midseason. \$1.50.
- *Mary Brand 8.7 Brilliant deep red which does not fade. Midseason. \$1.50.

(Double Peonies continued)

- *M. Martin Cahuzac 8.8 Deep garnet coloring makes this one of the very darkest of peonies. Globular flowers of medium size. Midseason. \$2.00.
- Onondaga Large, deep red flowers are borne on tall stems making an accent in the garden. Early midseason. \$2.00.
- *Philippe Rivoire 9.2 Fine dark crimson. Flowers of medium size hold their color until the petals fall. Fragrant. Midseason to late. \$2.50.

*Varieties in this class we have found to be the best and most reliable for color and free-blooming quality. We recommend these if you are in doubt as to selection.

Single Peonies

For shipping charges, see Page 44.

Prices quoted are for strong, healthy plants with at least three to five buds.

Two-year clumps, add 50%.

Three-year clumps at double price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. five or more of a variety priced at \$1.50 each would be \$1.35 each.

The number following each name is the percentage rating given by the American Peony Society.

The single flowered varieties are the first to bloom, but the side buds will continue to bloom over a considerable season. They are specially satisfactory for garden effects as they withstand the rains and wind where the heavier doubles might be beaten down. The large yellow centers of stamens give a distinct note.

Adana — Delicate shell pink with bright golden stamens. Long buds resembling roses, open with broad petals of good substance. \$2.00.

- *Clairette 8.1 Long arching stems bearing large pure white flowers. The petals are long and silky. \$1.50.
- *Helen 8.9 —A Cherry Hill production. Stems very tall and erect with broad foliage. A double row of broad, cupped petals of deep shell-pink surround a mass of golden stamens. The earliest to bloom. \$1.50.
- Le Jour 8.6 Large, pure white petals of good substance and a fine variety. \$2.00.
- *L'Etincelante 8.4 Broad petals of bright pink with silvery borders. Especially attractive in the garden. \$1.50.
- *Mellen Knight 8.4 Strong erect stems bearing rich crimson flowers with golden centers. The petals are smooth and rounded. \$1.50.
- Mischief 8.6 Clear, even pink flowers, borne in abundance on strong stems. Later than most singles and is attractive for a long time. \$1.50.
- *Pride of Langport 8.9 Deep shell-pink with compact center of golden stamens. Stems strong and an abundance of bloom. \$1.50.
- *The Bride 8.4 Large white flowers borne on strong stems. A fine variety. \$1.50.

Japanese Jype Peonies

For shipping charges, see Page 44.

Prices quoted are for strong, healthy plants with at least three to five buds.

Two-year clumps, add 50%.

Three-year clumps at double price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. five or more of a variety priced at \$1.50 each would be \$1.35 each.

The number following each name is the percentage rating given by the American Peony Society.

These so-called Japanese Peonies which have been grown in this country are those which have one or two rows of petals and centers of stamens much thickened. These latter are almost devoid of pollen and in some varieties make thick cushions of golden yellow. In others the stamens are self-color tipped or crusted with yellow. The effects are beautiful and distinct and are charming for the garden and as cut flower decorations.

- *Ama-no-sode 9.2 Large, bright rose-pink with lighter tints. Extra. \$3.00.
- Charm 9.2 Deep red with well-formed center of yellow. The petals are smooth and rounded making a very attractive flower. Late. \$2.50.
- Currant Red Lively cerise-red petals, stamens yellow, marked with self color. Attractive in the garden. \$2.50.
- Emma Broad petals of bright pink. Very fine variety. \$3.00.
- *Glow Deep cerise-pink surround a cushion of narrow petals overlaid and crusted with straw yellow. A bright tone in the garden. \$1.50.
- *Hari-ai-nin 8.9 Dark maroon-red petals with center composed of broad stamens the same color of petals but heavily tipped yellow. Total effect of stamens is lines of red and yellow. \$2.50.
- Jeffries' Crimson Broad, rounded petals of deep crimson with a satiny finish. Compact mass of yellow stamens makes a flower which strikes a distinct note in the garden. \$1.50.
- *King of England 8.6 A rich shade of carmine, stamens self-color edged golden. \$1.50.
- *Magnolia Bright rose-pink with overlapping petals. Center of enlarged stamens of chrome-yellow which are crusted with golden yellow. Strong vigorous growth. Extra good for garden effects. A Cherry Hill production. \$2.50.
- *Mikado 8.6 Rich red petals and broad center of stamens of deep yellow edged in red. \$1.50.
- **Purity** White petals enclose a cushion of yellow stamens. \$1.50.
- Samoset—Broad petals of vivid pink surround a cushion of orange yellow stamens. Tall strong stems bear many flowers. New. \$2.50.
- **Soshi** Deep crimson and gold. Very effective in the garden. \$1.50.

- Tokio 8.9 Tall, strong stems, flowers of rose-pink with large yellow center. Blooms freely. \$1.50.
- *White Gull A double row of broad rounded petals of white surround a cushion of yellow stamens. Red stigmas. Much admired by all who have seen it. A Cherry Hill production. \$3.00.

*Varieties in this class we have found to be the best and most reliable for color and free-blooming quality.

PEONY COLLECTIONS OF UNUSUAL VALUE

COLLECTION NO. 1

Karl Rosenfield 8.8 — Brilliant dark crimson. Midseason.

M. Jules Elie 9.2 — Clear pink with silvery light. Early midseason.

Priscilla Alden 9.1 — Large, pure white. Early.

Coronation 8.5 — Delicately tinted petals of pale pink. Early midseason.

Regular Price \$6.50 — Collection Price \$5.00

COLLECTION NO. 2 — JAPANESE TYPE

- Ama-no-sode 9.2 Large, bright rose-pink with lighter tints.
- Glow Deep pink with a cushion of narrow petals overlaid and crusted with straw yellow.
- Hari-ai-nin 8.9. Dark maroon-red, stamens tipped yellow. Late midseason.
- White Gull Pure white, golden center. Midseason.

 Regular Price \$10.00 Collection Price \$8.75

VARIETIES NOT LISTED

We have many other kinds not listed. Should you wish any special variety, we will quote you if available.

ASSORTED COLLECTIONS

For those who wish a collection without names, we can furnish a very good assortment in our selection of colors at \$10.00 per ten.

In Japanese-type Peonies we can furnish an assortment of colors at \$11.00 per ten.

These are all good varieties and would be worth much more if sold to name.

For shipping charges see Page 44.

Fertilizers, Insecticides and Fungicides

BONE MEAL — 2-23 — Organic source of nitrogen and phosphorus, excellent bulb food. 10 lb. pkg
BOVUNG DEHYDRATED COW MANURE — One of the best organic soil conditioners. Especially good for roses.
25 lb. bag
BUELL POULTRY PEAT — Poultry manure combined with peat. Wholly organic plant food with humus added which holds moisture in the soil. Can be used with no fear of burning on perennials, shrubs and lawns. 5 lbs
GRO-FAST EVERGREEN FOOD—4-10-4 — Prepared for Rhododendrons, Azaleas and Laurel. 25 lb. bag
GRO-FAST PLANT FOOD—5-10-5 — General all purpose, partially organic plant food for flowers, shrubs and vegetables 5 lb. pkg
GRO-FAST ROSE FOOD—7-10-5 — Prepared especially for roses. 10 lb. pkg
PLANT-O-GANIC — 8-8-8 — A formula made up especially for members of the Mass. Nurserymen's Association. The nitrogen is 75% organic. 10 lb. pkg
NATIVE PEAT — Fine ground. Very good when added to soil for Rhododendrons, Azaleas, Laurel, etc. 25 to 28 lb. bag
PEAT MOSS — Fine ground for garden use. Good for mulching or adding humus to soil. Large bale

The above nine items are for truck delivery only.

No mail or express.

CHLORDANE 10% DUST OR SPRAY — Controls cut-
worms, wire worms and most beetles. Also leaf miner on Birch and Elm trees.
1 lb. can
D.D.T. DUST 10% — Controls Japanese beetle, all cater-
pillars, leaf hoppers and thrips. 1 lb. canister
3 lb. canister 1.55
MALATHION 50% — Contains 50 per cent malathion for
controlling spider mites, aphids and Japanese beetles. 4 oz. bottle
POMO-GREEN — DUST OR SPRAY — Controls insects,
black spot, mildew and mites. For Roses, flowers and ornamentals.
1 lb. canister 1.45
3 lb. canister 3.25
SEYMOUR SMITH "SNAP CUT" #119 — One of the best moderate priced hand pruners for all around garden use
SPIDER MITE DUST OR SPRAY — Contains Aramite for
control of red spider on Roses. Also spider mites on
Arbovitae, Spruce and other evergreens. 1 lb. sifter canister
WETTABLE & DUSTING SULPHUR — A summer fungi-
cide containing 95% sulphur. Controls black spot and
mildew on roses, also spider mite on evergreens. 1 lb. canister

Arrangement & Planting

An effective planting is an asset to the homeowner and community.

For those in doubt as to the plants and arrangements of their grounds we are always glad to give assistance. It is a great help if you can bring a few snapshots with measurements when coming to the nursery.

In cases of more extensive plantings we suggest you telephone or write for an appointment to have a representative call. He will gladly give you suggestions and estimates on work to be done.

PLANTING

Many people wish to do their own planting. Dig an ample hole, somewhat wider and deeper than the root spread. Put some loam in the bottom and place the plant so that it will be a little deeper than when growing in the nursery. If plants have a ball of earth the burlap may be left on, only cutting away the top. When the hole is two-thirds full sprinkle a handful of fertilizer in the trench and cover with earth. Fill trench with water and add loose soil until hole is filled. The first summer soak thoroughly once a week.

MAINTENANCE AND CARE

Evergreens and shrubs, when planted near the house, will in a few years, grow too large for the space assigned them and will mar the effect which was originally intended. Instead of waiting until they are too large and then pruning them drastically, it is much better to give them a light pruning every year. By this method no large branches are cut, and the planting will continue for many years improving in value and appearance.

It is better to make a light application of fertilizer every year rather than too much at one time. Especially near the house, the soil is often dry and lacking in plant food.

EFFECTIVE PLANTING MAKES AN ATTRACTIVE HOME

GIFT CERTIFICATES

We are prepared to issue Gift Certificates, redeemable by us. This certificate will bear the recipient's name and yours as donor. For anyone interested in a garden or planting the home grounds this makes a very acceptable Christmas or Anniversary gift.

For those interested in plants and flowers, we would recommend the Massachusetts Horticultural Society. Membership makes available all important books on gardening, lectures, the publication of Horticulture, etc. The annual membership is \$8.00. Apply to the Secretary, Massachusetts Horticultural Society, Horticultural Hall, Boston 15, Mass.

Home office and section of gardens of Cherry Hill Nurseries. West Newbury, Mass.

Condition of Sale

We guarantee all our freshly dug nursery stock to be true to name and in first class condition when shipped so that with proper aftercare, losses will be reduced to a minimum.

We will replace, or refund the purchase price of any plant material that proves other than represented; however, any labor incidental to planting replacements must be paid by the purchaser. Our guarantee is void on accounts not paid within thirty days after date of invoice.

TERMS: One to four plants of a single size and variety at the each rate; five to twenty-four at the ten rate; twenty-five or more at the hundred rate when such rate is given. These prices apply to our usual first grade stock, but when a tree or plant of outstanding quality is selected, a special price is charged.

TERMS: Charge accounts for thirty days' credit may be opened by new customers giving satisfactory bank or trade references, but to those unknown to

us, we ask for cash with order.

All prices for stock are here at the Nursery, and packing will be charged at cost. We are equipped to make truck delivery on full loads throughout New England and the surrounding territory at a cost which in most cases is not greater than the combined cost of packing, freight or express. This is a very satisfactory method as plants are delivered fresh, directly to the planting site. On small orders, less than a full truck load, we can usually make combination load deliveries within a radius of 40 miles of the Nursery, the cost being divided depending on the size of the order. These, of course, cannot be delivered on any specified date. All plants, however, not balled will be packaged or wrapped so that if the customer is not there on arrival, they will keep safely for several days.

Due to modern methods of handling, the transplanting season has been greatly extended. Our spring season commences usually the last of March or early April and continues through June during which time almost all plants may be safely moved. Our fall season starts with the planting of evergreens in late July and deciduous material from October until the ground freezes.

Owing to the uncertainty of supplies, we reserve the right to change prices without notice.
